10
YEARS
OF Adventures

AXOPAR

A SPECTACULAR ANNIVERSARY YEAR

Year 2024 marks a milestone in Axopar’s history, as we reach our 10th anniversary when the company proudly reflects on its remarkable journey of trailblazing achievements and growth. Since its start, Axopar has redefined boating and created an entire new genre – adventure boating, and today, the company remains at the forefront of development as the original adventure company, leading the way in innovation and design.

“This is how far Axopar has developed in only 10 years, to become industry leader and create an industry of its own adventure boating is an unique achievement in itself. We’re proud of our community of Axoparians and we are super excited about the next coming 10 years.” says co-founder Jan-Erik Viitala.

Axopar’s -10year anniversary is set to be spectacular and it is not only going to stop with AX29 XC and ST. We will celebrate the anniversary throughout the whole year. There is going to be a lot of news and a lot of new cool things coming from Axopar in 2024.

Stay tuned and we think you will be surprised by what else we have in store!

THE
ADVENTURE
COMPANY

With the same DNA as the bigger Axopar ranges, the 22 T-Top and Spyder offer responsive handling and safe mannerisms, that enable you to relax, and focus on having a good time out on the water. The twin-step, low center of gravity hull with deep-vee configuration assures good directional stability and fantastic grip during cornering.

With substantial headroom, the cleverly proportioned size and shape of the T-Top roof will ensure a good deal of protection from the elements, both for those seated at the driving console and for those seated in the areas immediately behind.

A boat that is capable of commuting comfortably in changeable conditions and remains predictable and logical in its behavior, no matter what weather conditions are thrown at it! With Axopar, it's about offering in-built safety and total peace of mind.

AXOPAR 22 T-TOP / SPYDER

Axopar has always been known for creating exciting and innovative boats with great handling and performance, combined with solid, competitive pricing for customers.

The cool-looking Axopar 22 is a true driver's boat, offering first-in-class handling, seaworthiness and safety, combined with the efficiency and comfort that its bigger siblings are renowned for. A smart boat that packs a punch and will turn heads wherever you go.

FAST MARINE BOATS

Introducing elegance and sociability on the Axopar 22 Mediterrana - an edition that reinforces the art of relaxing and socializing on the water. The optional Mediterrana Edition takes the joy of sun-soaked lounging to new heights, fully embracing the essence of Mediterranean living without compromising their well-renowned seakeeping and drivability.

With the Mediterrana package you can enhance comfort and appearance, whilst utilizing the layout of the boats to the maximum, adding a new dimension of usability for day cruising endeavors.

The Axopar 22 range comes with a table and two wider seats with backrests on the front deck. Additional removable handrail cushions on each side of the boat serve as ideal spots for leaning or sitting and feature built-in cupholders

Two of the standout features onboard are the ability to transform the optional multi-storage and u-sofa configurations into full sun-lounging areas. This clever design converts the entire aft deck into a large sunbed with plush removable backrests for added comfort. The driver and co-driver seats can be rotated to face the aft, creating an expanded hangout or dining area.

In just a few short moments, you'll feel relaxed, at ease and fully in control behind the wheel of an Axopar. Responsive handling and safe mannerisms make driving as simple and intuitive as if behind the wheel of a modern-day car.

FAST MARINE BOATS

AXOPAR X JOBE EDITION

Make an unmistakable impression with your Axopar 22 based Axopar x Jobe Edition. For those searching for the ultimate watersports experience, the Axopar x Jobe edition can offer you just that.

The Axopar x Jobe Revolve is based upon the Axopar 22 Spyder, representing the results of a long-term, in-depth design and manufacturing collaboration between the Axopar and Jobe families - a partnership guaranteed to extract the maximum amount of fun and pleasure from being on the water.

The Axopar x Jobe Revolve makes an unmistakable impression, with its white hull and Jobe graphics package, featuring neon green detailing and further complemented by extensive interior detailing in turquoise, filled with Jobe detailing and touches.

We offer a total water sports experience onboard for all possible fun on the water, for instance water-skiing, knee boarding, SUP boarding or towing your peak towable behind the boat. Or alternatively just catching sun or relaxing onboard with your friends. A water-ski pole comes as standard on both Revolve models.

AXOPAR 25 CROSS TOP / CROSS BOW

When you desire a dynamic, adventure-grade cuddy cruiser that opens up new perspectives with the elements of nature all around. The Axopar 25 Cross Bow provides undiluted fun and gripping speed.

It is time for a shakeup and the Axopar 25 provides just that – an innovative and compelling solution, but strictly adhering to its proven award-winning legacy and DNA. The Axopar 25 Cross Bow is for anyone looking for something more than just a straightforward day-boat. Axopar's foray into the thriving world of cuddy cruisers is another leap forward in terms of value for money; offering more space, more overall comfort and more all-round capability.

The cushioned sundeck atop the sleeping cabin invites to hangout and socialize with friends or lay back and enjoy the surroundings with chilled refreshments by your side.

The ultra-cool looking Axopar 25 has a raised 'cuddy cabin' sleeping accommodation, where the cabin defines the character of the boat. A full width cushioned sundeck is positioned atop the cabin roof, with a sloping backrest that follows the rake of the front screen. The wide helm console and front screen offer a helm seating area with more space and room for a step through entrance to the front cabin, in a style used by other larger Axopar models.

Utilizing our knowledge, and the time and effort spent developing its larger siblings, we want to call this model a true crossover between comfortable day boating and extended island-hopping, where the seaworthiness and handling all Axopars are renowned for, come to the fore.

Built to get every inch of adventure out of your time at sea, the sporty Axopar 25 Cross Bow is guaranteed to please those who are looking for a fun playmate with fantastic drivability to maximize their days on the water. If the afternoon slips into evening, you can extend the adventure overnight in the cozy front cabin.

Inspired by a laid-back Mediterranean spirit, and a love for lounging and socialising onboard, we developed a Mediterrana Edition for the Axopar 25 range. Now we have fully utilized the perfect layout of the Axopar 25s, further enhancing their appearance with more relaxed, elegant looks and comfort on board.

A good spread of deck seating modules and storage options will enable customers to configure the boat precisely according to their needs. The optional multi-storage compartment (shown on the left) offers plenty of space to store watersports gear but it also serves as a great hang-out area on the boat.

The Mediterrana Edition upholstery consists of exclusive and subtle yet stylish detailing with accentuated patterns and a structured feel of marine fabrics. The fabric keeps the interior and lounging areas at comfortable temperatures, even on the warmest summer days.

25 RANGE

As the global leader in adventure boating, we have built a legacy over the past decade that has redefined how people explore the water. This year, Axopar is celebrating ten years of innovation with the launch of AX/E, its groundbreaking new electric sub-brand.

The launch of AX/E is a direct continuation of Axopar's commitment to pushing boundaries in both innovation and sustainability. The new sub-brand marks a significant milestone in electric boating, offering the opportunity to explore the waters with zero emissions while delivering the seamless performance, reliability, and seaworthiness synonymous with Axopar.

AXOPAR 
100% ELECTRIC

Through Axopar's long-term partnership with EVOY, one of the world's leading companies in high-output electric propulsion systems, the AX/E models represent a unique collaboration that brings together the absolute best in marine innovation. EVOY'S advanced electric power solutions seamlessly complement Axopar's award-winning designs, creating a boating experience that pushes the boundaries of what's possible — offering unparalleled torque, whisper-quiet operation, and zero emissions.

ELECTRIFY YOUR ADVENTURE

Axopar is raising the bar for electric boating by introducing the first fully electric, series-production adventure boats — the AX/E 22 and AX/E 25. These exclusive models bring together the renowned modularity, performance, and drivability of Axopar with cutting-edge electric propulsion, delivering emission-free boating without compromise. AX/E takes electric boating beyond sheltered waters, making seaworthy, high-performance electric boats a reality in an elegant way.

AXOPAR AX/E

100% ELECTRIC

The upcoming AX/E 25, recognized with the 2023 Gussies Award in the "Production Electric Boats: Up to 8m / 26ft" category, stands out for its unique ability to maintain a comfortable, dry ride in challenging conditions, even at speeds between 20-25 knots. AX/E 25 is an all-weather electrical motorboat capable of doing 25 nm with speed of 25 knots. This was made possible by Axopar's innovative hull design, which efficiently balances stability and performance, making it one of the rare electric boats that can confidently venture beyond sheltered waters. With an impressive top speed of +50 knots and a range of up to 60 nautical miles at slow speeds, the AX/E 25 combines thrill and efficiency, ensuring every journey is exhilarating and responsible.

AX/E offers more than just a commitment to sustainability; it provides boaters with a deeper connection to the water. The whisper-quiet operation, instant torque, and seamless power delivered by its electric motors offer a new way to experience boating—one that is silent, powerful, efficient, and environmentally conscious. Fast charging technology and real-time monitoring systems ensure that AX/E models are as reliable as they are innovative and stay on the cutting edge of innovation, with over-the-air updates continually enhancing performance with every journey.

AX/E 22 SPYDER / T-TOP

Designed for coastal cruising and day trips, this model offers 36 knots of exhilarating speed and a range of +50 nautical miles at slow speeds. Powered by the Evoy Breeze motor, the AX/E 22 offers an unmatched balance of style and sustainability with its sleek Mediterranean-inspired design and premium eco-friendly materials.

AX/E 25 CROSS BOW / CROSS TOP

Built for extended adventures and open-sea exploration, the AX/E 25 can reach speeds of 50 knots with a range of 60 nautical miles at slow speeds. Featuring advanced technology like the E-Brain™ Management System, and powered by the Evoy Storm motor, it sets a new standard for luxury and performance in electric boating.

U-Sofa configuration

FAST MARINE BOATS

AXOPAR 29 XC CROSS CABIN

Capturing the spirit of adventure. This all-new range of boats represents the culmination of living our adventure and listening closely to our customers.

Everything onboard, all you can see, touch and feel, has been improved and enhanced, while listening closely to our costumers and without forgetting our origins and paying homage to the predecessor, the Axopar 28.

The Axopar 29 XC Cross Cabin is truly pushing the limits of the adventure boat genre while offering next-level multifunctionality and maintaining exceptional value for money.

One of the biggest surprises hiding within the 29 feet, is the multi-cabin under-seat storage area in the bow, with access to a toilet and wash-hand basin, which doubles as a 'temporary' full-length sleeping space for two.

The foredeck has been reimagined and optimized being more social, now able to sit even up to 8 people. The standard L-shaped sofa can be extended into a u-shaped sofa. With the hi-lo table and infill cushions the bow transforms into a full width sunbed instead. The forward facing sofa enlarges the social area and potential on the bow, creating one of the most sociable and enticing spaces we've imagined so far.

The hull design and all functions onboard have been vastly improved: greater visibility, unbelievable range and fuel economy, masterful handling and drivability, stiffer construction which translate to more silent drive. These are but few improvements among a plethora of innovations onboard.

The boats are functional and have an optimized layout. The walkaround deck, has been enhanced with wider flare and higher bulwarks for safer & faster movement from aft to bow.

On the Sun-Top (ST), the new U-Sofa layout integrates the main socializing areas into the bow and cockpit while leaving the aft deck open and usable for any onwater activities.

The pilothouse on the XC Cross Cabin is now noticeably more spacious with an incredible 360 view thanks to the completely new panoramic rear window, giving the passengers an unparalleled experience of the surrounding nature. The sliding doors have a complete design makeover and are taller and wider than before, allowing easier access to the inside of the cabin.

Enjoy easy access to the aft cabin through the back of the spacious pilothouse or through the large roof hatch from the aft deck. The practical aft-cabin also doubles as a huge 'multi-storage' space for transporting gear and equipment, or as an additional sleeping space for two.

AXOPAR 29 SUN TOP

Where More is More. Just like on the XC Cross Cabin, every detail on the Axopar 29 Sun Top has been refined. At Axopar, we do not change anything without a sense of purpose. Everything new on board has been done for specific reasons, to improve functionality, usability, comfort and set an even higher quality with a new visual presence.

You can see the Axopar 29 is clearly made with the same Axopar DNA; however, looking closer, the new, bolder and more adventurous design language and attitude, combined with a wave of new and innovative ideas and fresh solutions, gradually unfolds.

Not only redefined hydrodynamics and improved efficiency, the hull itself is more defined, more fluid, and with a less angular stance about it. The bow section is higher with a more pronounced flair that will impart a sense of protection from the elements and maintaining its renowned ride quality, even in rougher conditions.

The curved windshield keeps you protected from the elements, while the lowered floor gives excellent visibility and an improved driving sensation. The repositioned driver and co-driver seats allow for easy access from both port and starboard.

The innovative multi-cabin in the front can be equipped with a head, sink, and additional cushioning, making for a perfect space for extended stays out on the water.

The extended modularity on the 29 extends to the fore deck as well. With new layout options such as a u-sofa, and forward-facing sun beds, you can enjoy lounging in even more ways than before.

On the Sun-Top (ST), the new U-Sofa layout integrates the main socializing areas into the bow and cockpit while leaving the aft deck open and usable for any onwater activities.

In true Axopar fashion, the helm on the Axopar 29 Sun Top is driver-focused and provides an uncluttered dashboard, with the essentials within hands reach.

Combining the multi-cabin and aft cabin you will house more than enough guests for any potential spontaneous adventures ahead.

Following the very successful Axopar 37 Sun Top with its sliding canvas roof, this feature has now been transferred over to the Axopar 29 Sun Top, to provide sun protection and still having that open air feeling and letting the sun inside the cockpit when you want. The sliding canvas roof is offered standard with manual operation, and optionally with electric actuator.

To make your home away from home, feel even more like home, you can choose the optional top-loading fridge and sink, so you can have an ice-cool beverage, and some snacks, all while taking in the sceneries.

Take full advantage of the 29's maximised travel advantages and explore beyond what you've before thought possible for a sub-30-footer. With the increased fuel tank capacity, up to %30 increased flue economy and increased storage spaces you will explore and discover new adventures and new horizons.

AXOPAR 29 CCX

Born from an ambitious vision and a curious mind, the Axopar 29 CCX marks the first venture into the market of center console styled boats, expanding the global adventure boat range. This model is a true crossover, seamlessly blending utility, comfort, and versatility.

The Axopar 29 CCX caters to a wide range of boating enthusiasts, from seasoned adventurers to first-time boaters, with complete freedom to choose between going 'full-on' fishing or selecting between several of the most sociable layouts out there. Offering the flexibility to handle both, fishing trips and social gatherings with its versatile deck layout, while maintaining the same modularity and customer centric solutions that this sports-weekender range is known for.

The Axopar 29 CCX is designed for increased weather protection, essential for long journeys to favorite fishing grounds or explorations that may require several hours of continuous travel in high cruising speeds exceeding 35 knots.

The console features a forward tilting, fully enclosed toughened glass windshield and side windows, offering excellent protection from tiring wind-chill, spray and rain.

The forward extending hardtop contributes to the boat's modern look offering better sun protection and, when needed, airflow for the driver through its integrated skylight located in front of the helm.

While delivering an unmatched driving experience, Axopar boats are known for their superior handling and performance, ensuring every ride is smooth, exhilarating and enjoyable, whether you are on calm inland waters or navigating open seas.

The Axopar 29 CCX combines the sturdiness and utility of traditional center consoles with Axopar's signature style. The Axopar 29 CCX is designed with the distinct needs and preferences of center console customers in mind, recognizing the subtle, yet important, differences that set them apart from recreational boaters.

The Axopar 29 CCX is designed to be fully customizable, offering several different aft deck configurations to suit a variety of functional preferences and requirements.

The foredeck optionally features a -19gallon (74 litres) insulated fish box with a macerator, ensuring your catch stays cool and fresh. The fish box also extends the seating in the fore deck area and can be utilized with the optional hi-lo table and sun pad.

Behind the standard aft seat row, you will can choose to go with a dedicated -33gallon (125 litres) bait well with clear top hatch and tackle station, complete with a fish-filleting and cutting board, freshwater tap and sink, and ample under-cabinet storage for reels, lines, tools, and other essential gear. The main bait well features an optional raw water wash down pump. Additionally, the portside fenderbox can also house an -18.5gallon (70 litres) live well with overboard draining.

The hardtop can also be equipped with rod holder bar, radar, search light and also a spray hood to better cover the sides of the helm.

A -158gallon fuel tank (600 litres) provides up to +300 nautical miles of range, ensuring more than sufficient capacity for both inshore and offshore adventures. This represents a massive 100 percent increase in both range and capacity compared to the Axopar 28.

The Axopar 29 CCX 'fishing version' offers a full open aft deck layout, providing ample floor space and unrestricted headroom for rod fishing and landing those extra large catches.

A more athletic appearance with the raised bulwarks that also enhance offshore capability and safety while moving around the deck, even during intense fishing sessions.

The integrated handrails help prevent fishing lines from snagging and optional coaming pads offer increased comfort. The proven deck design, with purposeful walkaround side decks without steps and flush floor level for the helm provide better visibility and a safer look out.

U-shaped bow sofa w. hi-lo table (optional) incl. multicabin (standard)

AXOPAR 37 XC CROSS CABIN

The Crossover challenges convention in both looks and onboard functionality, which brings a new era to all-weather boating.

The Axopar 37 XC Cross Cabin takes you further on your journey, whether it be in the harsh cold seas of Svalbard, in the sunny and warm Caribbean or surrounded by the bustling streets and stunning skyline of Manhattan. Every square on board is used for socialising and practical living; indoors and now outdoors as well, infused with a myriad of new onboard solutions and functionalities, no matter if cruising or spending time at anchor.

The Axopar 37 XC Cross Cabin is a the perfect platform for every adventure at sea.

Image displaying
Mediterranea Interior MY24

Forget the old prejudice that a cabin boat is all just about spending time inside its cabin; the new Axopar 37 XC raises the outer spaces to equal importance and functionality, as sociable and practical as it is comfortable inside.

Never before has an all-weather boat looked this striking, instantly turning heads wherever you go with its captivating modern looks, challenging the perception of traditionally 'boring' enclosed cabin 'work' boats.

Make life your adventure with this stunning and unconventional all-weather performer that smoothly combines functionality, ease of movement and great social areas. Sit back, relax and fully take in the scenery and beauty of a sunny day from the comfortable and wide sunbed area on the foredeck of the Axopar 37 XC Cross Cabin.

Stay in close touch with the great outdoors and swing open the sliding cabin doors to take it all in or head out to explore further shores with the adventure gear you bring along. Elevate the onboard experience with the optional Mediterranean Edition for more elegant looks and comfort (shown in the picture below).

The optional wet bar package gives you full access to a refrigerator, sink and more storage on the aft deck. You can further upgrade your aft deck with folding seats and the wet bar with an optional gas grill, allowing you to cook your favourite dinner on board in the open air.

Mercury's Vessel View® on-board management system has more information and data on boat and engine functions than any other system in the boating industry. The LCD screen is the information portal to your boat, allowing you to display engine information, genset, sounder, and much more. Additionally, you can also get unique insights with the Vessel View Mobile app that makes it possible to connect to the engines from a mobile device.

AXOPAR 37 SUN-TOP / SPYDER

You love the feeling of driving a very competent, open speedboat with fantastic grip and handling, which provides an extremely compliant ride. You prefer the wind in your hair, having great allround visibility, and the opportunity to be one with your surroundings.

The 37 Sun-Top and Spyder are loaded with a myriad of innovative functionalities and creature comforts. The Spyder is your true playmate for blasting offshore, letting you enjoy the user-friendly characteristics and safe, responsive nature. If you want to be more protected from the sun, the extended roof on the Sun-Top offers the best shade and weather protection possible; this without compromising on the space and versatility of the walkaround sides and aft deck area. The optional new roof rack and multi-storage compartment give you the possibility to bring and transport all your adventure gear with you.

Enjoying a great day in the sun with family, savouring 'al-fresco' dining, having a party with friends or for those who love the feeling of running an open boat but still being protected from the weather. The 37 Sun Top has proved to be the perfect choice, easily justifying its position as a true game-changer.

Gullwing doors redefine how an enclosed front cabin can be best utilised to provide a more sociable feeling and encourage full interaction with one's surroundings, making the front cabin feel like it is part of the outdoors.

The bright and airy front cabin comfortably accommodates two people for overnight stays and can be customizable with the Mediterrana Package for an elevated look. To fully let the outdoors in, open up the optional gullwing doors.

An optional Glass Helm Simrad Information Display 2 x 12" is available, with fully customised, innovative, driver-focused user interface. This includes integrated vessel startup check, and eco/sport driving modes with active driving assistant features. The entertainment and media is controlled and monitored via the intuitive single-touch glass display.

The driver-focused ergonomic helm, with its clean and uncluttered dashboard, ensures the skipper will always remain confident and in control when handling the boat, even single-handed.

Image displaying MY24 interior

The standard built-in electric flush toilet, with 70L septic tank, is easily accessible under the L-sofa in the front cabin in all 37 range models. An optional fully enclosed toilet compartment with the standard toilet bowl moved to the starboard side, mounted transversely. Corian top with sink, faucet and a small storage compartment. Further upgradable with an optional shower compartment.

LAYOUT ALTERNATIVES FOR AFT DECK

The modular nature of Axopars, and our multi-platform thinking, enables you to extensively customize your boat with a plethora of aft deck options and layouts. The Axopar 37 Spyder & Sun-Top come with a spacious open aft deck, equipped with an aft facing perch as standard, while the Axopar 37 XC Cross Cabin has a fully open aft deck.

AXOPAR 45 XC CROSS CABIN

The innovative Axopar 45 is not your typical recreational boat. With a completely new multifunctional and modular concept for a boat in this size, the 45 is one of the most versatile boats on the market, setting a new genre for fast commuting – in abundant comfort and style.

We love bringing out disruptive products that challenge the norm and our instantly recognizable Axopar 45 XC Cross Cabin is no exception. It is the world's first outboard-powered, fully enclosable walk-around cabin boat in its size, providing unparalleled all-weather cruising. With just a simple touch, you can seamlessly transition from an enclosed cabin boat to an open boat experience. In an instant, you can swiftly close the big dual sliding doors and the dual electric roofs to be completely protected from the elements.

Whether you're looking for comfort or social spaces onboard, the 45 XC offers you a wide combination of thoughtfully designed features - making it a perfect choice regardless of the weather.

For those sunny days at sea, slide the doors and the roof wide open to let a warm breeze pass through the cabin and easily extend your space even further by opening the balcony doors. For added comfort, adjust the table position and the movable wetbar to arrange the most comfortable seating around the table. Invite your guests over get ready and enjoy a great day at sea with tasty food and cold beverages.

FAST MARINE BOATS

Fuelled by a passion for innovation, we have introduced technical features to enhance the aft deck's usability. The optional integrated starboard fender box's wetbar and grill, run by shore power or an optional power bank, will make any meal onboard an instant hit and the 40L fridge ensures cold drinks and snacks are an arm's reach away. A sink with a faucet and storage compartment underneath adds further convenience to life on deck.

The stylish U-shaped sofa on the aft deck boasts comfortable seats and headrests for sitting back and relaxing. Compartments under the U-sofa's longitudinal benches and transversal bench provide ample dry storage space with easy access. This option also includes an infill cushion that can transform the U-Sofa into a luxurious full-size sun bed.

The modern day icons are standard on the -45range. Forget about cramped front cabins with little light and transform your already airy front cabin by opening up the gullwing doors and letting the sun and air into the front cabin, erasing the border between indoor and outdoor living.

Driven by a usability and safety perspective, we introduced a new innovative solution for the 45 range, our raised balcony doors. Located amid-ships where all the social activity is centered on the boat, they are extending usable seating space without sacrificing safety or comfort onboard.

The boat is one of the most economical -45footers on the market. Powered by triple Mercury V8 300 Verado engines, the Axopar 45 can cruise at speeds between 19 and 35 knots while remaining in the most cost-effective range. The advanced infusion lamination method used to manufacture the hull and stringer systems result in a lighter and more fuel-efficient boat.

AXOPAR 45 SUN-TOP

The new Axopar 45 Sun-Top (ST), designed to be versatile, seamlessly fuses the joys of open air boating adventures and sheltered comfort for an unforgettable experience on the water. Enjoy the exhilarating sensation behind the wheel, then unwind in one of the spacious social areas onboard.

The Axopar 45 Sun-Top is our interpretation of a perfect day spent out at sea in terms of functionality, drivability, comfort and safety. It is one of the most comprehensive and versatile boats on the market and a true go anywhere boat with confident design and performance, ideal for extended explorations and island hopping.

Lounging in style, cruising along the coast, or simply enjoying the serenity of the open water - your desires set the course for the perfect experience. Whether you choose to host sun-drenched gatherings with friends or enjoyable barbeque feasts under the evening sky, the extensive sociable spaces onboard the Sun-Top are tailor-made for unforgettable moments of leisure and fun.

The open helm is unrivaled for its modern appearance and spaciousness, providing captains with all-round visibility and confidence as they navigate while also allowing passengers to stay connected with the natural surroundings. Intriguingly spacious yet incredibly agile, the Axopar 45 maintains the same sporty driving experience as the 37.

FAST MARINE BOATS

AXOPAR 45 CROSS TOP

The Axopar 45 Cross Top is a hybrid between the Sun Top and Cross Cabin models, with a selection of the best properties of open and enclosed boating.

The Cross Top's negative-angle wraparound windshield protects against wind, rain, and glare while offering all-around visibility and improved navigation capabilities - an ultimate choice for professionals and seasoned adventurers.

With its unparalleled drivability and unique features onboard, you have more reasons than ever to head out longer and explore further - whatever the weather. The boat's renowned hydrodynamics, not only in terms of fuel efficiency but also in ride dynamics, gets you the sporty feel of a much smaller boat.

The layout of the boat is designed with the social spaces in focus. Its modular nature allows for easy customization and versatility of space for this type of boat, accommodating various activities and preferences. From casual day trips to longer journeys, the Cross Top offer the flexibility to adapt to all kinds of adventures.

With a fully protecting windscreen you and your passengers stay protected, making the Cross Top the perfect blend between open and enclosed boating.
